

INNOCOR

INSTALLATION & USER TRAINING COURSE

Trainer: Knud Pedersen kp@innovision.dk

Course coordinator: Juliánna Zölde jz@innovision.dk

By now you should have received your Innocor device.
Please make sure for the installation you have the following ready:

- **The INNOCOR device itself (monitor)**
- **The External PC (if applicable to your model)**
- **STARTKIT box (white cardboard box with consumables)**
- **TESTSET (if applicable to your model) - white carton box with testing gas and blue insert**
- Access the [INNOWEBlink](#) you were provided by the course organizer. Join the meeting.

Our online training session is free of charge.

It is structured around two sessions with a product specialist and 4 follow-up sessions in the course of your first year using the device.

Session 1

- User assembly of the Innocor
- Daily calibration of the Innocor
- Theory
- Performing a test
- Evaluating results

Session 2:

- Follow up on 1st session
- Setup options of Innocor
- Printout and export from Innocor
- Using scripts with Innocor
- Questions

Follow-up sessions: 1,3, 6 and 12 months

- You are welcome to contact us anytime should you feel the need for support and we will organize a follow-up session – please contact Juliánna Zölde jz@Innovision.dk
- For questions of technical nature – please contact Knud Pedersen kp@Innovision.dk
- We regularly follow up after 1-3-6 and 12 months, to make sure you are comfortable with the device and know how to take quality tests.
